Manager Commentary

As at: 30 June 2026

The Income Return, the Income Yield and the frequency of payment are not guaranteed and may vary. The Income Return is the total dividend per calendar year as a percentage of the share price as the end of the previous calendar year (excluding dividend). The Capital Return is the movement of the share price over a calendar year. The Total Return is the total of the Income Return and the Capital Return. The Capital Return and the Total Return are not guaranteed and may go down as well as up. Annualised return is an indication of the average growth of the Fund over one year. Any sharp fluctuations in the performance of the Fund over a period of time, is not necessarily represented by the annualised return indicated. The annualised return is not guaranteed and may go down as well as up. Income Yield is net of the fund's fees and expenses. This yield, which constitutes the income that the assets of the fund generate in relation to their value and the frequency of payments are not guaranteed and may vary. The value of the investment may fall as well as rise and currency fluctuations may also affect the value of the investment. Any initial charges and exit fees that may apply may lower the amount invested and the amount received upon redemptions. Investments should be based on the full details of the Vilhena Prospectus, Offering Supplements and the Key Investor Information Document, which may be obtained from BOV Asset Management Limited, Bank of Valletta Branches and Investment Centres and other licensed financial intermediaries. The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
